Fujitsu FACT Lab™ Interoperability Testing Report

Jul-07

SAS Enclosures	Stane Alone	AIC RMC3E2-SA 16-Bay	Promise J300 12-Bay	Rancho SAS4-35-IU 4-Bay
SAS HBAs				
Adaptec 3085 SAS RAID PCIe 8-port		Interoperable	Interoperable	Interoperable
Adaptec 31205 SAS RAID PCIe 12-port	Interoperable			
Adaptec 4805 SAS RAID 8-port	Interoperable	Interoperable		Interoperable
Adaptec 48300 8-port		Interoperable	Interoperable	
LSI SAS3442X 8-port		Interoperable	Interoperable	
LSI SAS3800X 8-port		Interoperable	Interoperable	
LSI MegaRAID SAS 8408E 8-port		Interoperable	Interoperable	

Systems used: Intel SE7501BR2, SE7520BD2

Disclaimer: The FACT Lab & Interoperability Testing is meant to test the interoperability of Fujitsu hard disk drives with the specified enclosures, host bus adapter cards, and operating systems as listed on the test matrices. It is in no way a statement of operation for any of the associated enclosures, host bus adapter cards and operating systems.
